

To whom it may concern, I am a ***paying subscriber*** to XM Sattelite Radio. I have recently been informed that NAB's (National Association of Broadcasters) petition 04-160 is seeking to stop XM from broadcasting traffic and weather information to it's listeners. Insofar as this is a paid service, I feel that that NAB has no authority in this matter, and I respectfully urge you to reject the aforementioned petition.

Respectfully Yours,

Nikhil Patel, Ph.D
University of Virginia
